Menstrual products: the choices

RETHINK PERIODS

The average menstruator will spend about 3,500 days having a period, which equates to 11,000-15,000 disposable products.

The majority of menstruators (59%) dispose of products in the bin, however those that are flushed down the loo cause issues down the chain.

When people flush tampons, applicators, pads and wipes down the loo, our sewers are at risk of flooding, damaging homes and polluting our beaches and waterways. Only flush the 3Ps - paper, poo and pee. Everything else goes in the bin!

Worn externally: pads & pants

	Which materials is it made from?	What level of flow is it suitable for? How often do I need to change it?	What does it cost? (guidance only)	How long will the product last?	Where can I buy it?	What do I do with it after use?
 Disposable pad	<ul style="list-style-type: none"> • Synthetic fibres, plastic • Organic cellulose • Synthetic fragrances. 	<ul style="list-style-type: none"> • Suitable for a range of flows • Change every 3-4 hours 	10p per pad	Single-use	<ul style="list-style-type: none"> • Supermarkets • Chemists • Online • Machines in public toilets 	<ul style="list-style-type: none"> • Fold and dispose of in the bin • NEVER flush
 Organic disposable pad	<ul style="list-style-type: none"> • Organic cotton • Wood pulp • Bioplastic. 	<ul style="list-style-type: none"> • Suitable for a range of flows • Change every 3-4 hours 	25p per pad	Single-use	<ul style="list-style-type: none"> • Some supermarkets • Chemists • Online 	<ul style="list-style-type: none"> • Fold and dispose of in the bin or home compost • NEVER flush
 Reusable pad	<ul style="list-style-type: none"> • Cotton • Bamboo • Synthetic materials. 	<ul style="list-style-type: none"> • Suitable for a range of flows • Change every 3-4 hours 	<ul style="list-style-type: none"> • £4.50 per pad (18p per use over product lifetime) • 2 or 3 pads needed to allow for washing and drying 	Up to 5 years, if well cared for	<ul style="list-style-type: none"> • Online • Make your own (instructions online) • In some supermarkets • Health food shops 	<ul style="list-style-type: none"> • Hand or machine wash without fabric softener and hang dry. • Rinse with cold water and store in a wet bag if changed away from home.
 Pants	<ul style="list-style-type: none"> • Cotton • Synthetic materials. 	<ul style="list-style-type: none"> • Suitable for a range of flows (hold between 1-4 regular tampons worth of blood) • Change every 4-12 hours 	<ul style="list-style-type: none"> • £10 - £20 per pair (40p - 80p per use over product lifetime) • 2 or 3 pairs needed to allow for washing and drying 	Up to 3 years, if well cared for	<ul style="list-style-type: none"> • Online • Health food shops 	<ul style="list-style-type: none"> • Hand or machine wash without fabric softener and hang dry. • Store in a wet bag if changed away from home.
